

Alphee Trading System Three

New in Trading Stock: Step by step on how to approach trading.

<http://alphee.com/ats/beginners.mp4>

ATS: Program overview.

<http://alphee.com/ats/overview.mp4>

ATS3 Techniques Descriptions

<http://alphee.com/ats/pdf.pdf>

Angles Analyzer: Planets angular separation.

<http://alphee.com/ats/angles.mp4>

Analogy: Calculate models for % of up or down and use them in forecasting modules.

<http://alphee.com/ats/analogy.mp4>

Astro Clock: This is a module that continues to recalculate a chart for the moment.

<http://alphee.com/startrax/astroclock.mp4>

Astro Model: Forecasting models.

<http://alphee.com/ats/astromodels.mp4>

BlackBox: A module to forecast major ups and downs.

<http://alphee.com/ats/blackbox.mp4>

Bradley: Calculate a graph using the Bradley technique.

<http://alphee.com/ats/bradley.mp4>

Chart Wheel: How to calculate IPOs and stock charts and save them in chart files.

<http://alphee.com/ats/chartwheel.mp4>

Compare: Compare your natal chart against an IPO or stock chart file.

<http://alphee.com/ats/Compare.mp4>

Composite: Calculates how a stock performed over a period of time.

<http://alphee.com/ats/Composite.mp4>

Daily: Calculate planetary criteria for days, weeks and months.

<http://alphee.com/ats/dailymodule.mp4>

Dow Jones: Working with the Dow Jones.

<http://alphee.com/ats/dj.mp4>

Easy Expert module: A forecasting module.

<http://alphee.com/ats/EasyExpert.mp4>

Ephemeris: Calculate a day to day list of planetary positions.

<http://alphee.com/ats/ephemeris.mp4>

Excel Data Format: How to load Excel Data in the ATS program.

<http://alphee.com/ats/mt4.mp4>

Fibonacci: Calculates Fibonacci, support and resistance lines on a graph.

<http://alphee.com/ats/FibPlus.mp4>

File: Use to move or make a list of IPOs from one chart file to another.

<http://alphee.com/ats/filling.mp4>

Lines Thickness: Setting Forecast Lines Color and Thickness.

<http://alphee.com/ats/lines.mp4>

Recapture Hidden Rating and Multibox Studies

<http://alphee.com/ats/window.mp4>

Icons Buttons: Shows the function of each program icon.

<http://alphee.com/ats/icons.mp4>

Indicators: How to work with different technical indicators.

<http://alphee.com/ats/indicators.mp4>

Internet: How to use the Internet to get information to help you trade.

<http://alphee.com/ats/Internet.mp4>

Intraday: How to work with intraday data.

<http://alphee.com/ats/intraday.mp4>

IPO: How to get the date and time for the first-trade chart IPOs.

<http://alphee.com/ats/IPO.mp4>

IPO: Best way to get IPO dates from Yahoo.

<http://alphee.com/ats/ipodate.mp4>

Load Prices Data: How to load prices.

<http://alphee.com/ats/lprice.mp4>

Load Prices Data 2: How to load prices to work with.

<http://alphee.com/ats/lprice1.mp4>

Model Editor: Editing or make new models to work with the program.

<http://alphee.com/ats/newmodel.mp4>

Multi Box: Calculate the weights of stocks and forecast their future.

<http://alphee.com/ats/multibb.mp4>

Multi Search:

<http://alphee.com/ats/multisearch.mp4>

Natural Cycle: Different models to calculate a future forecast for stocks.

<http://alphee.com/ats/Natural.mp4>

Neural Network: One of the best mathematical methods to calculate future forecasts of stocks.

<http://alphee.com/ats/NeuralNet.mp4>

NeuralNet Astro Indicators

<http://alphee.com/ats/nnindicator.mp4>

Phenomena: Calculate certain astrological concepts & displays the result on a graph.

<http://alphee.com/ats/phenomina.mp4>

Planetary Lines:

<http://alphee.com/ats/planetline.mp4>

Rating: Calculates the strength of the stock for the future.

<http://alphee.com/ats/atsrating.mp4>

Rating Saving Forecast: Calculates the strength of the stock for the future.

<http://alphee.com/ats/atsratingsave.mp4>

RSI: How to work with the Relative Strength indicator.

<http://alphee.com/ats/rsi.mp4>

RSI: How to use the RSI to help you forecast stocks with explanation.

<http://alphee.com/ats/atech.mp4>

Screening: Different screening concepts for choosing stocks to trade.

<http://alphee.com/ats/Screening.mp4>

Set Up Program: How to set up the program. The program Setup must be completed before using the software.

<http://alphee.com/ats/setyp.mp4>

Stat: Calculate criteria of major % moves to forecast the future of a stock.

<http://alphee.com/ats/Stat.mp4>

Stepping: Working with planetary aspects and positions.

<http://alphee.com/ats/stepping.mp4>

SuperSearch: Great module to test prediction results of astrological theory.

<http://alphee.com/ats/SuperSearch.mp4>

SuperSearch More: Check this different approach on using SuperSearch.

<http://alphee.com/ats/SSPerigee.mp4>

SupperSearch: Edit Models

<http://alphee.com/ats/editmodel.mp4>

Technical Analysis Video

<http://alphee.com/ats/analysis.mp4>

Technical Analysis description

<http://alphee.com/ats/technical.pdf>

Tdiary: Calculating buy and sell days from past performance.

<http://alphee.com/ats/tdiary.mp4>

Transit Chart: In SuperSearch.

<http://alphee.com/ats/transit.mp4>

URL HTM: This file is like a new training directory showing you many URLs on the internet that offer insights in trading to help you make better trades.

<http://alphee.com/ats/URL.mp4>

Mcwhiter Forecast

<http://alphee.com/ats/Mcwhiter.mp4>

There are YouTube videos for the Alphee Trading System webinars. You need to be connected to the Internet to view these webinars.
