

The Lost Hearing Aid

By Alphee Lavoie

On February 11th 2021 a long time client of mine called asking for a horary chart for her lost hearing aid. I took the time as 6:21:49 PM, TZ 4, and calculated the chart. All lost possessions, regardless of what it is, are always ruled by the 2nd house. In this chart the hearing aid is ruled by the planet Mercury which is in the 6th house. In looking at the chart the first thing I want to see is if any of the five significators are in angular houses. The five significators are the second house ruler, the Moon, Part of Fortune, the signifier of the Part of Fortune and Venus. Upon inspection none of them are angular. Seeing that the planet Mercury is in the 6th I feel that the lost item is in her work place.

When searching for a lost article I always bring up a local space graph. I discovered local space charts back in the 80's and find it's a must when looking for something. I rely on it constantly when searching for anything that is missing, whether it is an item, missing person or children or pets. Equipped with the direction from the local space graph we see that Mercury is pointing towards West. When my client called me back I asked her to place herself in the middle of the building where she works and face West. Then I asked her to walk towards the wall and face West. I then asked her where that takes her and what is she looking at. She replied 'in my office.' I also asked her to tell me what is on the West wall. Mercury is in the sign of Aquarius pointing to the West wall. She replied 'my desk is there'.

Remember now that Mercury is retrograde in the chart so the hearing aid will not likely be in plain sight but can be under or behind something. This is also shown by the intercepted third house. The third house has to do with communications and hearing. The Moon is also Void of Course. I love the Void of Course Moon when looking for lost items because 9 times out of 10 it shows recovery of the lost item. Additionally, the first house, the client, and the second house, the lost item are both ruled by Mercury telling us that her hearing aid will come back to her. All these of these techniques are invaluable when searching for something that has been lost.
